- Passionate about delivering clean, user-friendly, and visually appealing interfaces.
- Proficient in Git for version control and collaborating on projects with teams.

Academic Projects

Trendy Threads - Virtual Try-On Clothing Website

Technology: Next.js, Tailwind CSS, HTML5, CSS3, GSAP, Responsive Web Design

Trendy Threads is a stylish online clothing website with a virtual try-on feature that lets users preview outfits in real time. The site offers a premium UI with smooth animations and a fully responsive design.

Responsibilities:

- Designed and developed the entire frontend using Next.js and Tailwind CSS
- Implemented virtual try-on functionality to simulate clothing on user avatars
- Integrated responsive UI with GSAP animations for high-end visual feel
- Managed cart functionality and customer-side order flow using JavaScript and LocalStorage
- Ensured cross-device compatibility and a seamless UX

Experience :

Full Stack Developer Intern | Thiranex | Remote Internship

Chennai, Tamil Nadu, India June 2025 - Aug 2025

- build an eCommerce website using Next.js.
- Created responsive web pages with React.js and Next.js.
- Connected the site to REST APIs to show live product data and manage users.
- Improved website speed using lazy loading and code-splitting.
- Made the site more visible on search engines by using server-side rendering (SSR).
- Worked with the team in an Agile environment, attending meetings, and planning sprints.

Data Science Intern | Unified Mentor Private Limited | May 2024 – Sep 2024

- Data Visualization, Data Modeling, Python
- Pandas, Numpy, Apache Spark, TensorFlow, Scikit-learn, Metasploit & Seaborn
